Amendments to the Claims:

The following listing of claims will replace all prior versions, and listings, of claims in the application:

- 1. (Currently Amended) A method of treating <u>communicating</u> hydrocephalus in an animal or a human, comprising administering intraventricularly a pharmaceutical composition comprising <u>human recombinant</u> hepatocyte growth factor (HGF) (hrHGF) to an animal or human in need thereof.
 - 2-4. (Canceled)
- 5. (Previously Presented) The method of claim 1, wherein the pharmaceutical composition further comprises a pharmaceutically acceptable carrier.
- 6. (Previously Presented) The method of claim 5, wherein the pharmaceutically acceptable carrier is at least one selected from the group consisting of a carrier material, diluent, excipient, wetting agent, buffering agent, suspending agent, lubricating agent, adjuvant, vehicle, and material for delivery system.
- 7. (Previously Presented) The method of claim 5, wherein the pharmaceutically acceptable carrier is a carrier material for administering the HGF into a route of cerebrospinal fluid (CSF).
